“To escape and sit quietly on the beach – that’s my idea of paradise.”

Emilia Wickstead

MAGICAL MALIBU

Walks with your beloved along the sand of iconic Carbon Beach in Malibu, California might seem like a scene out of a dreamy movie. However, you’ll feel like you’re far away from the hustle and bustle of Hollywood and instead land upon a romantic hideaway while at Nobu Ryokan Malibu. The property is the first of the Nobu Ryokan Collection – a series of luxurious retreats for discerning brides and grooms looking to travel to exotic destinations and gateway cities – created by Chef Nobu Matsuhisa, Robert De Niro, Larry Ellison, and Meir Teper. Couples will enjoy authentic Ryokan-inspired design intermingled with Nobu’s unique style of artistry and the chic elegance of the California coastline. The beachside location boasts lavish accommodations with 16 guest rooms; some even include teak soaking tubs and indoor or

outdoor fireplaces, while exclusive spa treatments are also available in the comfort of your room. This magical haven is perfect for newlyweds who want to enjoy a short getaway before jetting off to an extended honeymoon. Even better, highly acclaimed Nobu Restaurant and Soho House’s Malibu club are just steps away to satisfy appetites. www.noburyokanmalibu.com
