JUNGLE PARADISE

Enjoy a relaxing, luxurious honeymoon immersed in natural splendor in Costa Rica.

Couples desiring a rejuvenating, sustainable honeymoon escape to truly reset after “I do” will find exactly what they’re looking for at **Origins Lodge** situated high in the northern rainforest of Costa Rica. Just a two-hour drive from the Liberia airport, travelers will be immediately introduced to a natural oasis at this remote mountainside retreat presenting 180-degree panoramic views of the volcanoes and valley below.

Refresh the mind, body, and spirit at one of six luxury lodges or a three-bedroom aerial villa – all designed to capture the untamed beauty of the landscape with breathtaking vistas throughout. Each spacious lodge features a handcrafted canopy bed, private wood-fire heated plunge pool on the terrace, and open-air bathroom suites. Ideal for couples or families, Villa Vertigo is suspended high amongst the lush treetops and

provides an expansive terrace lounge and accommodations crafted by local artisans for up to six guests.

The gastronomy, led by Michelin-starred Chef Jean-Luc L’Hourre, is equally impressive. A culinary wellness experience offers varying menus showcasing fresh ingredients from local farmers or the onsite organic garden to ensure each dish captures the spirit of the region. With an array of curated experiences – such as nocturnal wildlife tours, waterfall hikes or horseback rides, tubing down the Rio Celeste, and chocolate making at a local cacao farm – as well as relaxing activities, including healing massage treatments, paddle boarding, yoga, and cooking classes, there’s something for everyone to savor at this luxurious boutique property that allows newlyweds to start their marriage rediscovering the world in an unparalleled setting. originslodge.com
